

Project Detail

Atlanta Hartsfield Jackson CONRAC

Project Type:

Aviation

Address:

4310 Global Gateway Connector

City:

College Park

State:

Georgia

Description:

The Consolidated Rental Agency Complex at Hartsfield Jackson International Airport accommodates seven existing rental car companies operating at the airport and will provide for approximately 8,700 ready and return spaces. The major retail component of the complex is the 135,000 SF Rental Agency Complex (RAC). The facility accommodates the rental companies with an automated people mover system and road connections to the airport's Central Terminal Complex. Twin parking structures house 8,700 vehicles plus another 5,000 spaces of at grade parking spread across the 69-acre RAC site. The airport access roadway provides vehicle access between the new RAC and existing on-airport roadway system.

Size:

3.175 million SF

Architect:

PGAL

Business Segement:

CM at Risk
